

In Memory of a really good friend Melissa Wojciechowski.

This is the photo of you and your beloved Libby that convinced me to buy her from you. I have never regretted a day since that day in early August. She was your greatest gift to me and will always be very special. You always encouraged me in training and helped me realize just how special training a Poodle really is. Even if they don't always succeed they will make you smile.

So here's to you my good friend, you will always be remembered, especially when I am training. Happy training!
